

Runamarga Technologies Private Limited

1. Introduction

- Company Name : Runamarga Technologies Private Limited
- Company Website/URL : www.runamarga.com
- Contact details : 7090556263
- City : Bengaluru – 560057
- E-mail : prasanna.yrp@gmail.com
- Phone : 7090556263
- Date of Incorporation: 21/04/2025 CIN : U66190KA2025PTC201680
- Name of the Directors

#	Name (As per the RoC or Partnership Deed)	DIN Number (In case of RoC Company)	No of Shares
1	PRASANNA Y R	**11067550**	9000
2	AMEER KOLUR	**10486645**	1000

2. Problem Statement

Fragmented Customer Communication Infrastructure

High Human Dependency
Banks and SMEs continue to rely on large tele-calling teams for sales, servicing, and collections.

Limited Multilingual Reach
Existing systems inadequately support regional languages, restricting penetration into Tier-2 and Tier-3 markets.

High Operating Costs
Call centres significantly increase customer acquisition and servicing costs.

Non-Scalable Operations
Manual processes limit scalability and lead to inconsistent customer experiences.

Systemic Gap
There is no dedicated multilingual AI Voice Infrastructure designed specifically for India's financial services ecosystem.

3. Product/ Solution - Innovation

Conversational AI Voice Infrastructure

Conversational Intelligence
Layer Human-like voice conversations powered by Large Language Models (LLMs).

Voice Processing Layer
Real-time Speech-to-Text and Text-to-Speech engines.

Enterprise Workflow Layer
Automates customer journeys across sales, onboarding, support, and collections.

Analytics Layer
Conversation analytics, sentiment analysis, and compliance monitoring.

Integration Layer
Seamless integration with CRMs, LMS, Core Banking Systems, and enterprise applications.

Proprietary AI Infrastructure

Core Innovation

- Domain-specific AI Voice infrastructure for BFSI.
- Multilingual conversational intelligence.
- Context-aware customer interactions.
- API-first enterprise architecture.
- Proprietary workflow orchestration engine.

Differentiation

Infrastructure Platform → Not BPO

AI Agent → Not IVR

Conversational Intelligence → Not Rule-Based Automation

4. Product - Readiness Level

Prototype Development — TRL-3

Current Stage: Prototype / Experimental Proof of Concept

A functional prototype architecture has been designed, with core AI Voice infrastructure components structured for controlled validation in enterprise environments.

Completed

- Conversational AI architecture defined
- Multilingual voice workflows designed
- Enterprise automation use cases identified
- API-first integration framework established
- Analytics and reporting framework structured

Under Validation

Multilingual speech recognition accuracy

Context retention and conversational consistency

Enterprise workflow orchestration testing

CRM and banking system integration validation

Next Target (6 Months)

TRL 4 – Laboratory Validation

• Develop working MVP with end-to-end voice interactions

• Conduct controlled pilot testing with Banks/NBFCs

• Benchmark response quality and operational efficiency

5. Socio-Economic Impact of the Project

Digital Inclusion Through Conversational AI Social Impact

- Improved accessibility to financial services.
- Regional language enablement.
- Better customer awareness and engagement.

Economic Impact

- Reduced enterprise operating costs.
- Increased productivity.
- Creation of high-skilled AI jobs in Karnataka.

Phase-1 Targets

- 100,000+ automated conversations.
- 3–5 enterprise deployments.
- 25+ direct jobs created.

6. Team Size

Director

- Name : Prasanna Y R
- Designation : Founder & CEO
- Exp/ Qualification : MBA, BCom
- Previous Co worked : HDFC Bank, Axis Bank, Chaitanya India Fin Credit Pvt Ltd

Name : Anshuman

- Designation : Android Developer
- Previous Co worked : Vikas Global Solutions

Name : Komal Mane

- Designation : CTO
- Previous Co worked : Web Digital Mantra Pvt Ltd , Hire Spot

Name : Sharath R E

- Designation : Full Stack Developer
- Previous Co worked : Web Digital Mantra Pvt Ltd , Hire Spot

Name : Ipsita Behera
- Designation : Marketing Lead
- Previous Co worked : Itsy Bitsy , Sattvik Soul

Name : Deepika
- Designation : Process Executive
- Previous Co worked : First Job

Name : Sumanth
- Designation : Sales Officer
- Previous Co worked : HDFC Bank

Director

- Name : Ameer Kolur
- Designation : Director and Advisor
- Previous Co worked :Slice Small Finance Bank, Burlington, Lead School & Quiklo

7. Market Landscape - Market Potential, Competitors

India's Enterprise Conversational AI Opportunity

TAM
Indian Conversational AI market: Multi-billion-dollar opportunity.

SAM
Banks, NBFCs, Insurance companies, FinTechs, and SMEs requiring voice automation.

SOM
(First 18 Months) • 3–5 enterprise customers. • Karnataka-focused rollout. • 100,000+ conversations automated.

Market Drivers
• Digital transformation • Rising customer expectations
• Increasing support costs • Rapid AI adoption

SLIDE 9 — COMPETITIVE POSITIONING

Company	Generic AI	BFSI Focus	Multilingual	Enterprise Workflow
Yellow.ai	Yes	Limited	Yes	Yes
Kore.ai	Yes	Limited	Yes	Yes
Gnani.ai	Yes	Partial	Yes	Partial
Runamarga	Yes	Strong	Strong	Strong

Competitive Advantage Purpose-built AI Voice Infrastructure exclusively for Banks, NBFCs, Financial Institutions, and SMEs.

9. Revenue Model

B2B SaaS Infrastructure Platform

Revenue Streams

Annual SaaS subscriptions.
Usage-based voice charges.
Enterprise licensing.
Integration & implementation fees.
Premium analytics subscriptions.

Indicative Pricing

SME: ₹5,000–₹50,000/month
Enterprise: ₹5–50 Lakhs/year

10. Financial Projections

Metric	Year 1	Year 2	Year 3
Enterprise Customers	3–5	10–20	30–50
Automated Conversations	1 Lakh	10 Lakhs	50 Lakhs
Revenue	₹30–50 Lakhs	₹1.5–3 Crores	₹6–10 Crores

Assumptions

- Karnataka-first rollout.
- Enterprise pilot-led growth.
- Recurring SaaS revenue model.

11. Project Milestones

12-Month Technology Validation Roadmap

TRL 3 → TRL 4

MILESTONE 1 (Months 1–6)

- Develop AI Voice Agent prototype
- Build multilingual voice workflows
- Integrate STT, TTS & LLMs
- Complete CRM & telephony integrations
- Conduct pilot testing with Banks/NBFCs/SMEs

TRL 4 → TRL 5

MILESTONE 2 (Months 7–12)

- Deploy production-ready pilot
- Validate using live customer interactions
- Implement analytics & compliance framework
- Onboard 3–5 enterprise customers
- Enhance scalability, security & Performance

12. Total Budget

Category	Major Expenses	Amount (₹ Lakhs)
Product Development / R&D (44%)	AI/LLM APIs, Speech-to-Text & Text-to-Speech APIs, Cloud Infrastructure, GPU Servers, Telephony Integrations, CRM/Banking Integrations, Data Security (SSL), Analytics Dashboard Development	**22**
Salaries (20%)	CEO, CTO, AI/ML Engineer, Full Stack Developer, Voice AI Engineer, Business Development & Operations	**10**
Outsourcing (8%)	Telephony Service Providers, Security Audits, UI/UX Services, CA/Legal & Compliance Fees	**4**
Marketing (20%)	Digital Campaigns, Google & LinkedIn Ads, Industry Events, Product Demonstrations, Branding & Collateral	**10**
Administrative Costs (8%)	Office Rent, Utilities, Internet, Software Subscriptions, Travel & Miscellaneous Expenses	**4**

THANK YOU
